

# SIMATS ENGINEERING (SAVEETHA SCHOOL OF ENGINEERING)

Department of Computer Science and Engineering

## ASSESSMENT TOOL 1 – CONCEPT MAP

|                  |                                                                                                                       |               |                                 |
|------------------|-----------------------------------------------------------------------------------------------------------------------|---------------|---------------------------------|
| Course Code:     | ITA03                                                                                                                 | Course Title: | Mobile computing                |
| CO Assessed:     | CO1                                                                                                                   | Assessment:   | Assessment Tool 1 – Concept Map |
| Weightage:       | 60 % of CIA                                                                                                           | Total Marks:  | 20 marks                        |
| CO1 Statement:   | Analyse the mobile network components, mobile base station, mobile infrastructures and protocols in cellular systems. |               |                                 |
| Student Name:    | Galla Sai Siddartha                                                                                                   | Reg. No.:     | 192425093                       |
| Section / Batch: | AIML - 2024                                                                                                           | Date:         | 10 - 10 - 2026                  |

### Code of Conduct

*I **Galla Sai Siddartha (192425093)** (Name / Reg. No) certify that this submission is my original work and that I have adhered to the guidelines specified for this assessment. I understand that any violation of academic integrity rules will result in disciplinary action.*

*Signature of the Student: **Galla Sai Siddartha***

### Instructions

- This test contains ONE question.
- Duration: 30 minutes (At home)

## Annexure A - QUESTIONS

9. Design a concept map that evaluates various handoff mechanisms used in cellular networks. Compare hard handoff, soft handoff, and handoff decision parameters. Assess their suitability for maintaining uninterrupted communication. Justify your evaluation using interconnected concepts.

Date : 10 - 10 - 2026  
Course : ITA0329 - Mobile Computing

### C01 - Assessment 1

Name : Galla Sai Siddartha  
Reg No : 192425093

### Rubrics for Calculation

| Criteria                         | Weightage | Level 4 – Exemplary                                                        | Level 3 – Proficient                                  | Level 2 – Developing                           | Level 1 – Beginning                                    |
|----------------------------------|-----------|----------------------------------------------------------------------------|-------------------------------------------------------|------------------------------------------------|--------------------------------------------------------|
| Understanding of Problem Context | 20        | Clearly understands the problem and accurately identifies all requirements | Good understanding with minor gaps                    | Basic understanding; some requirements unclear | Poor understanding or misinterpretation of the problem |
| Application of Concepts          | 30        | Accurately applies appropriate concepts to solve complex problems          | Applies relevant concepts correctly with minor errors | Applies basic concepts with limited accuracy   | Fails to apply appropriate concepts                    |
| Problem Solving Approach         | 20        | Logical, well structured, and efficient approach                           | Mostly logical approach with minor gaps               | Basic approach with some inconsistencies       | Illogical or unclear approach                          |
| Accuracy of Solution             | 20        | Completely correct solution with proper justification                      | Mostly correct with minor errors                      | Partially correct solution                     | Incorrect or incomplete solution                       |
| Clarity                          | 10        | Clear, well organized, and properly explained solution                     | Understandable with minor clarity issues              | Limited clarity and explanation                | Poorly presented and difficult to understand           |
